

VORUGANTI NIKITHA

Ph:7286820528 | vorugantinikitha@gmail.com | <https://www.linkedin.com/in/nikithavoruganti-b436b2291>
<https://github.com/Nikitha424> | DOB:24-11-2003

Professional Summary:

Enthusiastic Java Full Stack Developer with hands-on experience in developing web applications using **HTML, CSS, JavaScript, and Java**. Knowledge of **front-end design, back-end logic, REST APIs (basic), and MySQL**. Strong problem-solving skills and ability to learn new technologies quickly. Seeking an entry-level role to contribute and enhance technical skills

. NOTABLE PROJECTS

Android Fingerprint Arduino Control Door Lock

- This project is to control home appliances in smart home with user-friendly, design at low cost, simple installation. It requires interaction between client and hardware unit

Keyless Entry

- It is also done using Arduino which opens with RFID/NFC. It provides a best way to operate the lock which means eradicating the traditional locking system.

Breast Cancer Detection

<https://github.com/Nikitha424/Breast-Cancer-Detection>

- Achieved high accuracy and precision in model performance through hyperparameter tuning and cross-validation.
- Built and optimized a breast cancer prediction model using the Wisconsin Diagnostic Dataset with SVM, KNN, and Random Forest, achieving high accuracy through preprocessing, feature selection, and cross-validation.
- Evaluated model performance using confusion matrices, ROC curves, and accuracy/loss graphs to ensure reliability and precision

Chest Diseases Detection using CNN Algorithm

<https://github.com/Nikitha424/Chest-Diseases-Detection-using-CNN-Algorithm>

- Developed a CNN model using Keras and TensorFlow to classify chest X-ray images and detect diseases like pneumonia, with preprocessing and data augmentation to improve generalization.
- Achieved high detection accuracy, validating performance with accuracy, precision, recall, and confusion matrix for effective medical image analysis.

TECHNICAL SKILLS

Programming Languages: Core Java, SQL, HTML, CSS, JavaScript, Python, C++, C

Java Technologies: Collections, JDBC, Servlets, JSP, Hibernate ORM, Spring Framework, Maven

Core Competencies: Object-Oriented Programming, Data Structures & Algorithms, Exception Handling, Problem-Solving

Databases: PostgreSQL, Oracle Database, SQL Querying, Database Design, Connection Pooling

Salesforce: Administration, Apex, LWC, SOQL, Reports & Dashboards, Flows, Agentforce

Systems: Windows, Ubuntu, Kali Linux **Tools & Technologies:** Git, TensorFlow, Arduino

EDUCATION

CMR College of Engineering and Technology

Bachelor of Technology in Computer Science and Engineering, (DATA SCIENCE)

Nov 2021 – May 2025

CGPA: 8.47

Sri Chaitanya Junior Kalasal

Intermediate MPC

April 2019 - March 2021

Percentage 75.5

Rajdhani Model High School

High School (SSC)

April 2018 - March 2019

CGPA: 9.3

ACHIEVEMENTS

- District Level Kabaddi Player
- Won First Place in Kabaddi at CMRCET
- NSS Volunteer at CMRCET
- Event Organizer in Azura Fest at CMRCET
